New21

We present the **new additions to the Gama Duo for 2021.**

A selection that has been carefully selected down to the last detail. Inspired by current trends and those to come, but designed to last over time.

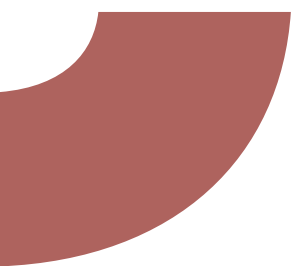

Design and technology come together to discover the decorative possibilities of Gama Duo through its new textures which enhance the tactile properties of the designs developed.

Re— treat

RUSTIC, REFINED AND WELCOMING

We rediscover our roots and quiet village life with a contemporary vision, where current values reinvent the way we live and design. We reuse materials to give them a new life and we are inspired by the stories hidden behind the wood aged by the passage of time.

ATLAS →

New aesthetic languages inspired by tradition.

Materials with history stimulate us to create new spaces in the home: the kitchen and the living room have become inseparable. Cooking, socialising or teleworking all in one place.

Cosy and intimate corners where toasted wood and untreated textiles are inspired by the imperfection of the material.

NEW

ARI

Ari is our **new finish** inspired by natural fibres and their slight imperfections. The play of the strands and the matt look emphasise the handcrafted character of textile designs.

Ba— lance

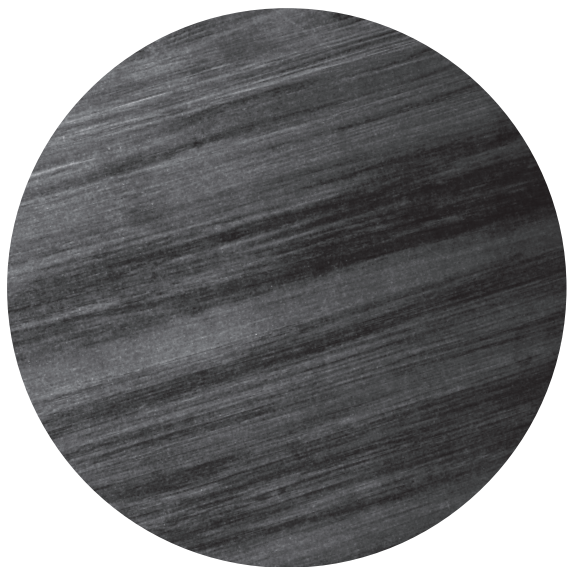

CALM, WARMTH AND LIGHTNESS

We consider the home as a sanctuary of well-being and harmony, where each of the individual materials balance our state of mind to help us achieve a feeling of calm.

Brightness and beige tones are essential for this trend. Neutral looking and calm oak wood combined with natural fibres connect us with the material in its most natural state.

The hall is the space that bids us farewell when we start our day and welcomes us when we return home. Reducing visual noise by keeping everything well organised is essential to help us feel relaxed.

BOREAL

Linear woods are in fashion. In light tones they visual lightness and fluidity to the room.

In combination with our **Boreal finish**, a freshly cut veneer effect is achieved, which enhances the natural look of quarter cut timber.

Time for self-care and wellness.

Holistic spaces and healthy routines improve our quality of life. From the moment we get up until we go to sleep, the different rooms in the home transmit sensations to us. Soft woods and natural fibres in raw tones help us to reconnect with ourselves and feel calm.

Soft Tech

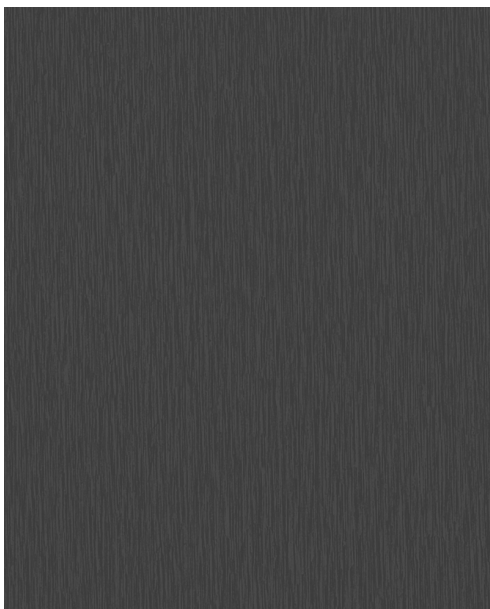

SOBRIETY, INNOVATION AND DELICACY

Smoky linear woods and sanded metallic effect designs in titanium or champagne tones are the perfect combination to create spaces that balance classic Italian taste with technological-looking materials.

NEW

MOON

Moon is a **new brushed** metal effect finish with a matt surface and a pleasant feel. The interaction of sheens and depths emphasises the sensation of a sanded surface.

IDEAL MATT

The decorative metallic look is a popular trend in home decoration, and especially in the kitchen. In combination with our **Ideal Matt finish**, we provide a matt anti-fingerprint surface with a silky touch that enhances the sophisticated character of this type of material.

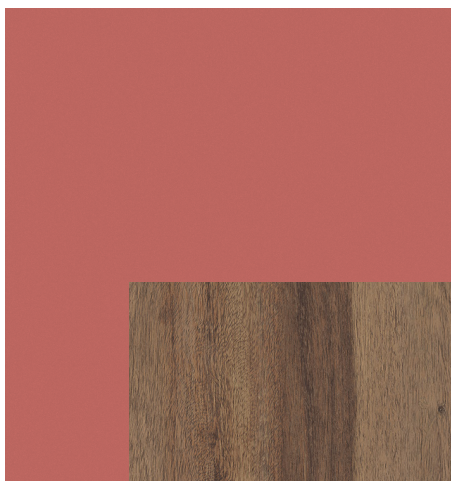

Posi — tivism

FUNCTIONAL, VERSATILE AND OPTIMISTIC

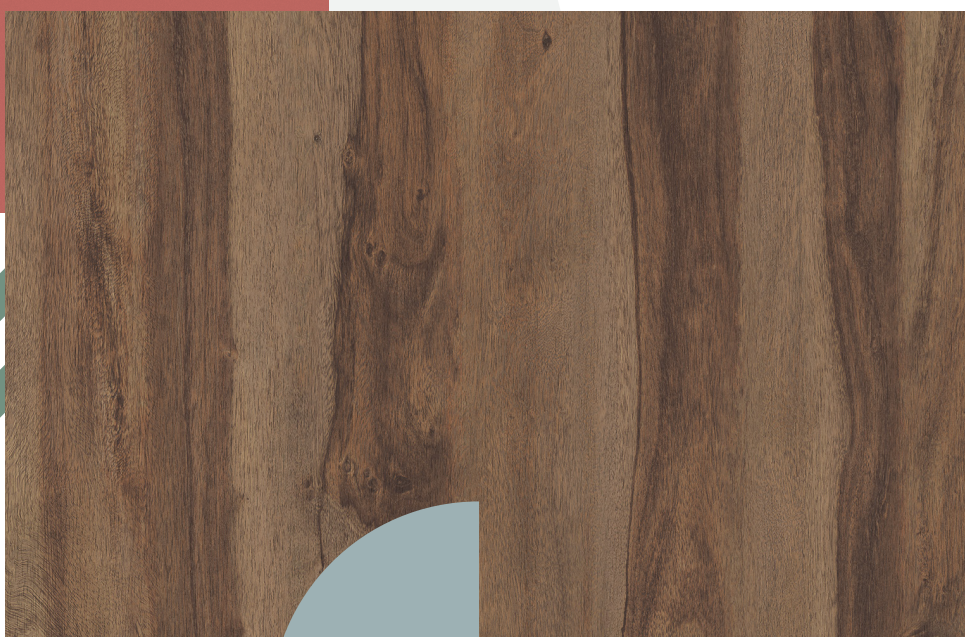

We soak up positive energy and freshness through spaces with an abundance of colour in which functionality is elevated to its maximum expression. The flexibility and versatility of the furniture allows us to centralise an endless number of daily activities in our home.
